

Praneesh Reddy Gunukula

Software Engineer

I'm a passionate software engineer who loves diving into projects with .NET and Angular. By crafting dynamic web applications, I bring digital worlds to life by creating dynamic web applications. I'm fueled by my passion for innovation and creativity.

WORK EXPERIENCE

Software Engineer

Paltech Consulting Private Limited

07/2022 - Present Hyderabad
Experienced in Enhancing Healthcare Management Software Implementation

Achievements/Tasks

- Developed and maintained scalable, high-performance web applications with a focus on user experience.
- Collaborated with cross-functional teams to ensure seamless frontend-backend integration. Implemented real-time features using WebSockets to improve responsiveness.
- Led Angular development with dynamic, JSON-driven forms and reusable components.
- Migrated and maintained applications on the latest Angular versions.
- Designed a dynamic JSON-driven multi-tenant structure for configurable UI fields and values.
- Built REST API-based microservices to enable scalability, modularity, and maintainability.
- Implemented robust HTML sanitization across frontend and backend to mitigate XSS attacks.
- Integrated Angular UIs with REST APIs, including authentication handling via HTTP interceptors.

Software Engineer

Apptmyz Technologies

07/2022 - 07/2024 Hyderabad
Experience Seamless Supply Chain Management With Apptmyz Logistics Solutions.

Achievements/Tasks

- Worked on Angular Projects.
- Developing responsive web applications with cross-browser compatibility and done code integration with REST API.
- Engaged in client calls to understand requirements and developed efficient user interfaces.
- Did unit testing & took care of the deployments in UAT. Promptly addressed and fixed bugs reported in production tickets.
- Managed the code base using the GIT version control system & worked collectively along with the team on a few shared modules rebasing & merging the codes.
- Mentored interns on a projects.
- Involved in the Software Development Life Cycle, including Analysis, Design, Implementation, Testing, and Maintenance.

EDUCATION

Bachelor of Technology

Sreenidhi Institute of Science and Technology

06/2018 - 06/2022 Hyderabad

Courses

- Electronics And Computer Engineering (CGPA 8.13)

SKILLS

TypeScript

Angular

JavaScript

Html

Css

MySQL

Git

C#

Object Oriented Programming

Bootstrap

RESTful APIs

ASP.NET

.NET Core

Web API

MVC

Postgresql

NgRx

Tools : PostMan , VSCode, Jira

Entity Framework

Agile/Scrum Methodologies

Performance Optimization

Troubleshooting and Debugging

PROJECTS

Web Application for the Healthcare Management

- Designed and developed a full-stack healthcare management system by leveraging **.NET** for building secure and scalable backend services, and **Angular** for creating responsive, data-driven user interfaces that enhanced the overall user experience.
- My contributions included code optimization and collaboration with UX/UI teams to align the front-end design with user expectations.

Web Application for Logistics Platform

- Built a robust logistics platform by implementing **.NET** for efficient backend workflows and API development, combined with **Angular** to deliver dynamic, interactive, and responsive frontend experiences for end users.
- Set up the project from scratch & made the efficient use of components which could be re-used just by providing the data to be shown, theme settings etc.

UI Kit Modernization & Storybook Integration

- Upgraded the UI Kit to the latest Angular version, improving scalability and maintainability.
- Integrated the UI Kit with Storybook, enabling isolated development, real-time previews, and comprehensive documentation of reusable components.

ACHIEVEMENTS

Recognized for Outstanding Performance

Recognized for **outstanding contribution and exceptional performance** in the current project.

Ecm Eagles

Secured third prize in hackathon
